BULLETINS

OF

ALABAMA

Agricultural Experiment Station.

INDEX.

VOL. II.

BULLETINS 1-21, NEW SERIES.

JULY, 1888—DECEMBER, 1890.

MONTGOMERY, ALA.:

THE BROWN PRINTING CO., PRINTERS AND BINDERS.

1896.

CONTENTS.

Bulletin.

1. Report of Agricultural Experiment Station July, 1888
2. Report of Agricultural Experiment Station Oct., 1888
3. Report of Agricultural Experiment Station Jan., 1889
4. Strawberry, grape and raspberry culture Feb., 1889
5. Cotton experiments, pig feeding, etc. April, 1889
6. Grasses and their cultivation July, 1889
7. Experiments with vegetables ; methods of setting milk. Oct., 1889
8. Commercial fertilizers Nov., 1889
9. Nematode root-galls Dec., 1889
10. Grape culture Jan., 1890
11. Peaches and plums Feb., 1890
12. Co-operative soil tests Feb., 1890
13. Microscopic study of certain varieties of cotton March, 1890
14. Pea vines as a fertilizer April, 1890
15. Insecticides April, 1890
16. Corn, cotton, rye, chufas June, 1890
17. Dry application of Paris green and London purple for
the cotton worm July, 1890
18. Climatology of Alabama Aug., 1890
19. Roads and road-making Oct., 1890
20. Small fruits, melons and vegetables Nov., 1890
21. A new root rot disease of cotton Dec., 1890

NOTE.

The earlier publications of the Alabama Agricultural Experiment Station, forming Volume I, are as follows :

Bulletins Nos. 1-10.....1883-1885.

Bulletins Nos. 1-9.....1885-1887. "Second Series."

Bulletins Nos. 1-8 for 1887.

Bulletins Nos. 1-5 for 1888.

These early bulletins issued before the passage of the "Hatch Act," are rare and mostly out of print; this is partly due to the burning of the college building in 1887 which destroyed many of the files. The present volume commences the series issued under the Hatch fund.

INDEX.

In the following citations the number preceding the colon refers to the number of the bulletin; the number or numbers following it to the page:

<i>Acer dasycarpum</i>	2: 19
<i>rúbrum</i>	2: 19
<i>saccharinum</i>	2: 19
<i>Aesculus parva</i>	3: 15
<i>Ailanthus glandulosus</i>	2: 19
<i>Aletia xyliana</i> ; see Cotton worm.	
<i>Alopecurus pratensis</i> , description and analysis.....	6: 16
Analyses, number and character of (1884-1888).....	1: 17
Analysis of bat manure.....	8: 15
coal.....	3: 13
cotton seed.....	8: 7
hull ash.....	14: 9
fertilizers; see Fertilizers.	
food stuffs.....	5: 48
grasses.....	6: 16-36
iron ore (limonite).....	2: 13
milk.....	5: 55
natural phosphates.....	8: 15
potatoes (Irish).....	2: 13
red clay.....	2: 13
soils and subsoils; see Soils.	
supposed phosphatic rocks.....	8: 15
Anthraenose, beans affected by.....	20: 11
<i>Arrhenatherum avenaceum</i> , notes and analysis.....	6: 16, 17
Ash.....	3: 14
Atkinson, Geo. F., biologist.	
A new root-rot disease of cotton.....	21: 3-11
Directions for sending specimens.....	7: 20, 21
Kerosene emulsion, how to make and apply it.....	15: 3-6
Nematode root galls.....	9: 5-54, 21: 3-11
The dry application of undiluted Paris green and London purple for cotton worms.....	17: 3-15
Bags, paper as protectors for grapes.....	3: 9, 10
Barnyard grass, notes and analysis.....	6: 27, 28
Basswood.....	2: 19

Beans, bush or dwarf; varieties tested for growth, product- iveness, etc.....	20: 11
affected with anthracnose.....	20: 11
varieties tested for earliness, growth and product- iveness.....	7: 15, 16
Beech.....	3: 15
Belgian grass.....	6: 34
Bermuda grass, notes and analysis.....	6: 18, 19
<i>Betula nigra</i> and <i>lutea</i>	3: 15
Birch, black and cherry.....	3: 15
<i>Blissus leucopterus</i> , how to destroy.....	15: 5, 6
Blue grass.....	6: 30
Bolls, cotton; see Cotton.	
Bottle grass, notes and analysis.....	6: 35
Box Elder.....	2: 20
<i>Bromus secalinus</i> and <i>unioloides</i> , notes and analysis.....	6: 17, 18
Buckeye.....	3: 15
Buckthorn.....	3: 15
<i>Bumelia lanuginosa</i>	3: 15
Butter production as affected by feed.....	5: 37, 38
experiments in setting and churning milk.....	7: 4-6
use of ice in cream separation.....	7: 7
Button bush.....	3: 15
Cabbage, varieties tested for heading qualities.....	2: 5, 6
Canary grass, notes and analysis.....	6: 30, 31
Cantaloupes, varieties tested for productiveness, size, char- acter and quality of fruit. (1888).....	2: 9
(1889).....	20: 7
(1890).....	20: 8
<i>Castanea vesca</i>	3: 16
<i>Catalpa bignonioides</i>	3: 16
Cattle, Jersey, at station farm.....	5: 34, 35
intense in breeding.....	1: 5
<i>Cephalanthus occidentalis</i>	3: 15
<i>Cercis Canadensis</i>	2: 20
Cherry, wild.....	2: 20
Chess or cheat, notes and analysis.....	6: 17
Chestnut.....	3: 16
China tree.....	2: 19
Chinch bug, how destroyed.....	15: 5, 6
Chufas, productiveness of.....	16: 20
Clay, red, analysis of.....	2: 13
Clayton, Jas., assistant agriculturist, Report of.....	7: 9-16
Climatology of Alabama (1811-1890).....	18: 5-73

Clover, Buffalo.....	6: 37
Florida.....	6: 32
Japan, notes and analysis.....	6: 22
Mexican.....	6: 32
Southern.....	6: 37
Spanish.....	6: 32
white.....	6: 37
yellow, small.....	6: 37
Coal, analysis of.....	3: 13
Compost, directions for making.....	16: 7-10
Cooley creamer and DeLaval separator compared.....	7: 7, 8
Cooperative Soil Tests with fertilizers (1889).....	12: 3-15
directions for conducting (1889).....	12: 3-5
(1890).....	12: 11-15
localities selected.....	12: 3
plan of work.....	12: 3
Reports for 1889.	
Albright, A. V., Tuscaloosa county.....	12: 9-11
Norris, J. J., Etowah county.....	12: 7-9
Oliver, J. P., Tallapoosa county.....	12: 5-7
Corn, experiments for depth of planting.....	16: 16
with fertilizers for cost, yield and per cent.	
of stalk, shuck, grain, cob and fodder.....	16: 16, 17
manure, best and cheapest.....	16: 6, 7
profit of fertilizing, 10 acre test.....	3: 3
1 acre test.....	3: 4
table, varieties tested for earliness.....	1: 8
tested on sterile and fertilized land.....	3: 3, 4
varieties tested for earliness, productiveness, etc.....	16: 18
<i>Cornus florida</i>	2: 20
Cotton, compost for.....	16: 8
deductions from tests of fibre.....	13: 16
fibre, what is it?.....	13: 4
best quality and character.....	13: 11
how produced.....	13: 11
how improved.....	13: 11-14
character of soil.....	13: 2
climatic conditions favorable.....	13: 13, 14
improvement of seed.....	13: 11, 12
plates, illustrative of.....	13: I, II
description of.....	13: 16
lice.....	15: 4, 5
microscopic study of.....	13: 3-16
plants, distance experiments.....	16: 19
pot tests with fertilizers (1888).....	5: 16-28

(Cotton, pot tests)

in red soil from Tallapoosa county.....	5: 24
sandy soil from Tallapoosa county.....	5: 25
six mixed soils from Butler county.....	5: 27
soil from Mobile county.....	5: 21
Perry county.....	5: 26
Pike county.....	5: 18
Sumter county.....	5: 20
Talladega county.....	5: 19
with Thomas scoria in worn soil.....	5: 28
worn soil from near Auburn.....	5: 21
virgin " " " ".....	5: 23
seed, analysis of.....	8: 7
hull ashes, analysis of.....	14: 9
meal as a fertilizer.....	16: 6, 7
in compost.....	16: 9
source of nitrogen.....	8: 7-9
value as a fertilizer.....	8: 7, 8
yield per ton at oil mill.....	8: 8
species. <i>Gossypium Bahama</i>	13: 3
<i>Barbadense</i> or <i>nigrum</i>	13: 3, 4
<i>herbaceum</i> or <i>album</i>	13: 3
tests for expense and profit of fertilizing.....	5: 13
ten acre test.....	5: 13
one acre test.....	5: 13
of floats with various sources of nitrogen.....	5: 10
and acid phosphate in combination with nitrogen and potash.....	5: 11
for proper ratio between phosphoric acid and ni- trogen with various phosphates.....	5: 7, 8
air-slaked lime.....	5: 10
with various fertilizers (1886-'87-'88).....	5: 4
varieties classified as to length and quality of staple... 16: 19	
tested for length of staple.....	5: 15, 16
strength, length and twist of fibre, per cent. of seed, and fiber per boll, &c.....	13: 4-11, 15
weight of bolls and yield of lint, &c.....	5: 15, 16; 18
Cow peas as fertilizers; see Peas.	
Cows, tests of feed for milk and butter production.....	5: 37, 38
Crab grass, notes and analysis.....	6: 21, 26, 29
Cream raising; see Butter.	
Crow foot, notes and analysis.....	6: 21
<i>Cynodon dactylon</i> , notes and analysis.....	6: 18, 19

<i>Dactylis glomerata</i> , notes and analysis.....	6: 19, 20
Dairy and barns of Experiment Station, description of.....	5: 33, 34
Cooley creamer and DeLaval separator compared.....	7: 7, 8
creaming milk with separator.....	5: 35
feed experiments for milk and butter production.....	5: 37, 38
yield of milk and butter.....	5: 36
<i>Danthonia sericea</i>	6: 20
DeLaval separator and Cooley creamer compared.....	7: 7, 8
Diagram of temperature, monthly, max., min. and av. for Ala.....	18: 31
of soil and max. and min. of atmosphere, '89.....	18: 73
winds of Ala., annual average direction, (1884-'89).....	18: 57
Dogwood.....	2: 20
<i>Eleusine Indica</i> , notes and analysis.....	6: 21
<i>Elymus Virginicus</i>	6: 22
Experiment Station of A. and M. College.	
agricultural department.....	2: 1
dairy, barns and cattle.....	5: 33, 34
description of.....	1: 5
established when.....	1: 5
work of.....	1: 5-7
<i>Fagus ferruginea</i>	3: 15
Feeding experiments with milch cows.....	5: 37, 38
pigs.....	5: 29-31
Fertilizers, analysis of.....	1: 18, 19
acid phosphates, 2: 12, 3: 12, 5: 43, 44, 14: 14, 15	
miscellaneous, 1: 22, 23, 2: 13, 3: 13, 5: 44-47,	
8: 14, 15, 14: 16	
phosphates with potash.....	1: 19, 14: 13
nitrogen and potash, 1: 20, 21	
2: 12, 3: 11-12, 5: 40-42, 8: 11-13, 14: 10-13	
those used at Experiment Station.....	8: 15
commercial.....	8: 3-15
values.....	8: 8
valuation, rates per pound.....	5: 39
"complete".....	8: 10
composting, manner of.....	16: 7-9
in furrow.....	16: 9
conclusions from experiments with.....	16: 14, 15
constituents estimated in commercial values.....	8: 4, 8, 9,
cotton seed hull ash, analysis of.....	14: 9
meal.....	16: 6, 7
in compost.....	16: 9
value of.....	8: 7, 8
for black prairie lands.....	16: 7
free, analysis of.....	8: 10

(Fertilizers)

good mixture for general use.....	8: 9
guaranteed analyses.....	14: 17-26
home manufacture of.....	8: 9
laws concerning.....	14: 27, 28
licenses, list for 1889,-'90.....	14: 29-39
methods for mixing.....	8: 9
nitrogen, sources of.....	8: 7, 14: 3-9, 16: 10, 11
ammonium sulphate.....	8: 7
cheapest.....	16: 6
refuse animal substance.....	8: 7
sodium nitrate.....	8: 7
vegetation.....	14: 4, 5
pea vines, value of.....	14: 5-8, 16: 11-14
phosphates, some practical suggestions.....	16: 5-7
raw of Alabama.....	16: 5
phosphoric acid, forms of.....	16: 4, 5
sources of.....	8: 5, 6
animal charcoal.....	8: 6
basic slag or	
Thomas scoria.....	8: 6, 16: 5
floats.....	16: 4, 5
fossil bones.....	8: 6
guano.....	8: 6
mineral phosphates.....	8: 6
potash, influence in retention of cotton leaves.....	16: 10
salts as conservers of moisture.....	16: 6, 10
sources of.....	8: 7
kainit.....	8: 7
muriate.....	8: 7
plant ash.....	8: 7
value of.....	16: 9, 10
rates of valuation per pound.....	5: 39

Worden.....	10: 13
Wilder.....	10: 13
Wyoming Red.....	10: 13
tested for earliness, character and quality of fruit.....	3: 10, 10: 8-13
Grasses of Alabama and their cultivation.....	6: 5-38
collecting and preserving specimens.....	6: 10, 11
definition of terms.....	6: 9, 10
list of.....	6: 12-15
varieties, notes on.....	6: 16-38
mixed, formulæ for seeding pastures.....	6: 6-8
Ground peas; see Peanuts.	
Gum, Tupelo and black.....	2: 20
Hart, J. W., dairyman.	
experiment in setting milk.....	7: 7, 8
Hatch Act, The.....	3: 23, 24
Hay, cutting and curing.....	6: 8, 9
<i>Holcus lanatus</i>	6: 22
Holly.....	2: 20
Hungarian grass, notes and analysis.....	6: 34
<i>Ilex opaca</i>	2: 20
Indian grass, notes and analysis.....	6: 34
rice.....	6: 37
Insects, how to pack and send specimens.....	7: 20
Iron ore, analysis of.....	2: 13
Jersey cattle; see Cattle.	
Johnson grass, notes and analysis.....	6: 33
<i>Juglans nigra</i>	3: 15
Kerosene emulsion.....	15: 3-6
how to apply.....	15: 4-6
make.....	15: 3, 4
used for cotton worm.....	17: 11
lice on cotton.....	15: 4
Lane, Jas. H., Professor of C. E. and Drawing.	
Roads and road-making.....	19: 3-13
<i>Lespedeza striata</i> , notes and analysis.....	6: 22, 23
Limonite, analysis of.....	2: 13

Locust tree	2: 20
Longevity, comparative, of budded peach trees and seedlings ..	11: 5
Louisiana grass	6: 25
Lupton, N. T., chemist.	
report of	1: 17-24, 2: 11-14, 3: 11-13, 5: 39-55, 14: 10-40
commercial fertilizers	8: 3-15
nitrogen as a fertilizer	14: 3-9
<i>Magnolia</i>	2: 18
Maple, red, silver and sugar	2: 19
Meadow grass (soft)	6: 22
Mean's grass, notes and analysis	6: 33
<i>Melia Azadirach</i>	2: 19
Mell, P. H., botanist.	
a microscopic study of the cotton plant	13: 3-16
climatology of Alabama (1811-1890)	18: 5-73
grasses of Alabama and their cultivation	6: 5-38
meteorological report .. 1: 28-32, 2: 22, 3: 18, 5: 56, 7: 17-19,	17: 16-18, 19: 14-16, 20: 15-18, 21: 12-15
report of	1: 25, 26
woods of Alabama	2: 15-21, 3: 14-17
Meteorological report; see Mell, Prof. P. H.	
Milk, analysis of	5: 55
experiments in feeding for	5: 37, 38
setting and churning	7: 4-8
Millet, German, notes and analysis	6: 34
Texas	6: 26
Mineral water, analysis of	2: 13
<i>Muhlenbergia diffusa</i> , <i>Mexicana</i> , and <i>sylvatica</i>	6: 23
<i>Negundo aceroides</i>	2: 20
Nematode root galls	9: 5-54, 21: 3-11
characters, external	9: 6, 21: 3-6
microscopic	9: 7
development and metamorphoses	9: 11-23
cystic state	9: 16
eggs	9: 11-14
females, development of	9: 8-10, 18
larval stage	9: 15, 16
life cycle, length of	9: 19
male, structure of	9: 17, 18
transformation of	9: 17
recapitulation	9: 19, 20
<i>Heterodera</i> , distribution of	9: 26-28
metamorphism of	9: 20-23, 21: 3-11
<i>radicicola</i> , compared with	
<i>H. Schachtii</i>	9: 23-26

(Nematode root galls)

- plants affected.....9: 49, 50, 21: 10, 1
- plates, illustrative of.....9: I-V

BULLETINS

OF

ALABAMA

Agricultural Experiment Station.

INDEX.

VOL. III.

BULLETINS 22-58.

JANUARY, 1891—AUGUST, 1894.

MONTGOMERY, ALA.:
THE BROWN PRINTING CO., PRINTERS AND BINDERS.
1896.

CONTENTS.

BULLETIN.

22	Experiments with cotton.....	Jan. 1891
23	Co-operative soil tests of fertilizers	Feb. 1891
24*	Dairying and breeding.....	Feb. 1891
25	Effect on butter by feeding cotton seed and cotton seed meal	Apr. 1891
26	Commercial fertilizer	Apr. 1891
27	Black "rust" of cotton.....	May 1891
28†	Watermelons and cantaloupes	Nov. 1891
29	Grapes, raspberries and strawberries.....	Nov. 1891
30	Apples, pears, peaches and plums.....	Nov. 1891
31	Irish and sweet potatoes	Nov. 1891
32	Corn, wheat and oats.....	Nov. 1891
33	Cotton.....	Dec. 1891
34	Co-operative soil test experiments for 1891.....	Jan. 1892
35	Glanders.....	Jan. 1892
36	Some leaf blights of cotton	Mich. 1892
37	Tobacco.....	Mich. 1892
38	Fertilizers.....	July 1892
39	Wheat.....	Nov. 1892
40	Cotton experiments	Jan. 1893
41	Some diseases of cotton.....	Dec. 1892
42	Co-operative soil test experiments.....	Jan. 1893
43	Eye diseases of domestic animals.....	May 1893
44	Tobacco plant.....	May 1893
45	Injurious and beneficial insects.....	June 1893
46	Rye vs. ensilage.....	June 1893
47	Fruits.....	July 1893

*Issued by mistake as Bulletin 23, but pen corrected in most copies.

†Issued in two editions, differing in type, and slightly in pagination, but otherwise alike.

BULLETIN.

48*	The effect of organic matter on natural phosphates; Commercial fertilizers.....	July 1893
49	Varieties of wheat and grasses.....	Oct. 1893
50	Fruit tree blight in general.....	Nov. 1893
51	Vegetables.....	Oct. 1893
52	Corn and cotton.....	Jan. 1894
53	A new milk or water sterilizer.....	Jan. 1894
54	Tobacco.....	Feb. 1894
55	A new disease of cotton: cotton boll rot.....	Apr 1894
56	Experiments in crossing for the purpose of improving the cotton fibre.....	May 1894
57	Fertilizers required by cotton as determined by the analysis of the plant.....	May 1894
58	Paris green: composition and adulterations.....	Aug. 1894

*Issued by the Department of Agriculture, Montgomery, Ala.

INDEX.

In the following citations the number preceding the colon refers to the number of the Bulletin; the number or numbers following it to the page:

- ALTERNARIA.....27:6, 9-11
Analysis of butter; see Dairying.
 cotton plant; see Cotton analysis.
 seed and meal.....49:3
 fertilizers; see Fertilizers.
 foodstuffs; see Dairying.
 milk; see Dairying.
 soils.....57:15
 spurry.....49:6
 tobacco; see Tobacco.
Anderson, J. T., Asst. Chemist.
 Fertilizer requirements of cotton as determined by an-
 alysis of plant.....57:3-16
ANGUILLULID.E.....41:62
Animals, domestic, diseases of,
 correspondence regarding.....35:18
 how to describe.....35:18
 eye; see Eye.
 Glanders; see Glanders.
 reported to station.....43:77, 78
 "big head".....43:78
 Catarrh (hollow horn?).....43:78
 Cerebritis or "blind staggers,"..43:78
 Conjunctivitis in fowls.....43:78
 Head scab in sheep.....43:78
 hog cholera.....43:78, 79
 "hooks,".....43:77
 "milk fever".....43:78
 "pink eye".....43:77
Anthraenose of cotton.....27:8, 41:40-49, 55:7
Apparatus for applying insecticides; see Insecticides.
Apples, notes on fall varieties.....47:6
 summer varieties.....47:5, 6
 winter varieties.....47:7
varieties badly affected by blight.....47:7
 entire failures.....47:8
 fruiting poorly.....47:7

Apples--varieties, notes on.	30:3
planted (1885) with northern exposure.	30:5-8
tested for adaptability to soil and climate. .	30:3-8
date of ripening.	30:3
Arctic grass; see <i>Bromus unioloides</i> .	
Asparagus, Conover's Colossal.	51:8
Atkinson, Geo. F., Biologist.	
Black rust of cotton.	27:3-16
Some diseases of cotton.	41:5-65
Some leaf blights of cotton.	36:2-32
BACILLUS GOSSYPINA.	55:6-12
MALLEI.	35:12-15
Beans, bush limas, best variety.	51:7
beetle or flea.	37:6
Black sulphur as insecticide.	41:34
Blight, cotton leaf; see Cotton	
fruit tree.	50:3-11
bacteria cultures.	50:9
description of disease.	50:5
inoculation experiments.	50:9, 10
nature and cause.	50:8, 10
remedies.	50:10, 11
various trees affected.	50:4
Blue grass, Texas; see <i>Poa arachnifera</i> .	
Boll rot, cotton; see Cotton diseases.	
Bondurant, A. J., Agriculturist.	
Co-operative soil tests. (1892).	42:3-34
Corn and cotton.	52:3-7
Effect of rye and ensilage on yield of milk.	46:3-7
Experiments with cotton. (1892).	40:3-15
Experiments with wheat.	39:3-7
The tobacco plant.	44:3-40
Tobacco. (1892).	37:3-20
Tobacco.	54:13-29
Borers; see Insects.	
Breeding,	
selection of bull.	24:4
cows for butter, milk, or beef.	24:4
BROMUS UNIOLOIDES.	49:8
Butter; see Dairying.	
Cabbage butterfly, and remedies for.	45:24-27
cut worm.	45:29, 30
Harlequin bug.	45:28, 29
worm.	45:24-27

varieties planted.....	51:6
recommended.....	51:6
Calves, raising.....	24:6, 7
Cantaloupes; see Melons.	
Cary, C. A., Veterinarian.	
A new milk or water sterilizer.....	53:3-10
Eye diseases of domestic animals.....	43:5-79
Glanders.....	35:3-19
CERCOSPORA GOSSYPINA.....	27:6, 10, 11, 41:18, 60
Cerealite for red rust of cotton.....	36:32
Cherries, eight varieties, all failures.....	47:11
Clayton, Jas., Asst. in Horticulture.	
Experiments in fruit culture.....	47:3-14
Experiments with vegetables.....	51:3-8
Experiments in wheat and grasses.....	49:3-8
COLLETOTRICHUM GOSSYPHII.....	27:6, 8, 10, 11, 41:40-49
Co-operative soil tests with cotton, Experiments with Fer-	
tilizers.	
1889, see Vol. II.	
1890.....	23:3-61
Test conducted at Auburn....	22:15-21, 23:48-51
directions for.....	23:3-7
experimenters, list of....	23:8
1891.....	34:3-46
directions for.....	23:54-58
experimenters, list of.....	23:52, 53, 34:3, 4
quantity and cost of fertilizers per acre.....	23:58, 59, 34:4, 5
pounds of fertilizing elements per acre.....	23:59, 60, 34:6
1892.....	42:3-34
analysis of fertilizers used.....	42:6
experimenters, list of.....	42:3
floats with nitrogen.....	42:34
quantity and cost of fertilizers per acre.....	42:5
summary of results.....	42:34
REPORTS OF EXPERIMENTERS (1890).	
Aday, Rev. L. C., Newburg, Franklin Co.....	23:8, 9
Beasley, E. J., Red Level, Covington Co.....	23:10, 11
Bishop, M. A., Madison, Madison Co.....	23:14, 15
Brown, D. L., Randolph, Bibb Co.....	23:12, 13
Compton, G. W., Dixon's Mills, Marengo Co.....	23:16, 17
Cross, R. H., Letohatchie, Lowndes Co.....	23:18, 19
Davison, J. A., Yantley Creek, Choctaw Co.....	23:23

INDEX

VOL. IV

BULLETINS 59—75

JANUARY, 1895 — DECEMBER, 1896

BIRMINGHAM:
ROBERTS & SON,
1898

CONTENTS.

BULLETIN.

59.	Co-operative soil tests of corn.....	Jan., 1895
60.	Experiments on foreign seeds.....	Jan., 1895
61.	Insects injurious to stored grain.....	Jan., 1895
62.	Corn and cotton.....	Feb., 1895
63.	Fertilizers—commercial and domestic.....	Feb., 1895
64.	Tobacco.....	Feb., 1895
65.	Co-operative seed tests.....	June, 1895
66.	Cane syrup.....	Oct., 1895
67.	Bovine tuberculosis.....	Nov., 1895
68.	Pig feeding experiments.....	Jan., 1896
69.	Treatment of some fungus diseases.....	Feb., 1896
70.	The flora of Alabama—Part V.....	Mar., 1896
71.	Experiments with foreign cotton.....	Apr., 1896
72.	A study of skin tumors of horses and mules in Alabama	July, 1896
73.	Edible fungi: a wasted food product.....	Oct., 1896
74.	Flour considered from the standpoint of nutrition.....	Oct., 1896
75.	Experiments with corn.....	Dec., 1896

INDEX.

In the following citations the number preceding the colon refers to the number of the Bulletin; the number or numbers following it to the page:

ACACIA	70:283
<i>farneciana</i>	70:283
AESCHYNOMENE.....	70:284
<i>hispida</i>	70:284
<i>vicidula</i>	70:284
AGRIMONY.....	70:293
common	70:293
smooth flowered.....	70:293
AGRIMONIA	70:293
<i>A. eupatoria</i>	70:293
<i>A. pari flora</i>	70:293
<i>A. incisa</i>	70:293
<i>A. striata</i>	70:293
AGRICUS CAMPESTRIS.	
Field agricus, or field mushroom.....	73:339-341
Alfalfa or Lucern, seed tests with; see Co-operative.	
AMANITA CAESAREA (<i>Cæsars</i>).	
<i>amanita</i>	73:341, 343
<i>flyagaric</i>	73:344, 345
<i>Amelanchior Canadensis</i>	70:295
AMORPHIA	70:282
<i>A. herbaceo</i>	70:282
<i>A. fruticoso</i>	70:282
<i>Amphicarpha monoica</i>	70:288
Analysis of bat manure	63: 96
beets	60: 30
cave earth.....	63: 96
Eleusine corocana.....	60:27, 28
Kodo millet.....	60: 28
Analysis of marls.....	63: 95
muck.....	63: 94
manure (stable).....	63: 90
Ragi millet.....	60: 28
syrup (bottled).....	66:192, 193

Analysis of the flour of the entire wheat.....	74:355, 356
Anthracnose of cotton.....	69:258
watermelons.....	69:263
grape.....	69:270
<i>Apios, tuberosa</i>	70:287
Apple.....	70:294
American crab.....	70:294
Apples, Fungous disease of.....	69:267, 270
Blight.....	69:267, 269
Leaf rust.....	69:269
Scab.....	69:269, 279
ASTRAGALUS.....	70:283
<i>A. Plattensis var Tennesseeensis</i>	70:283
<i>A. Villosus</i>	70:284
<i>A. Plattensis</i>	70:291
<i>A. Canadensis</i>	70:291
<i>A. glober. A. obcordatus</i>	70:291
Bajwara.....	71:300
Baai.....	71:300-304
Bamieh.....	71:300, 301, 303, 304, 305
BAPTISIA VENT.....	70:280
<i>B. leucantha</i>	70:280
<i>B. alba</i>	70:280
<i>B. perfoliata</i>	70:280
<i>B. lanceolata</i>	70:280
<i>B. tinctoria</i>	70:291
<i>B. leucophva</i>	70:291
<i>B. microphylla</i>	70:291
Baume hydrometer.....	66:190
Bean, Carolina kidney.....	70:286
wild.....	70:283
kidney.....	70:283
Beetles, injurious to stored grain.....	60:56, 58
Beets, sugar, analysis of.....	60:30
co-operative seed test, see Co-operative Tested in 1894.....	60:30
Blackberry.....	70:292
common.....	70:292
running swamp.....	70:292
sand.....	70:292
low bush.....	70:292
Blight,	
pear blight.....	69:267, 269
pear and quince leaf.....	69:269
cotton leaf.....	69:258
potato.....	69:258, 259

Southern tomato.....	69:261
tomato leaf.....	69:261
Boudurant, A. J. Agriculturist.	
co-operative seed tests.....	65:159, 181
co-operative soil tests of corn.....	59:3, 23
corn and cotton.....	62:63, 72
tobacco.....	64:107, 155
Bombay.....	71:300
Bordeaux mixture,	
formula for.....	69:253
potato diseases.....	69:260
tomato diseases.....	69:262
peach and plum rot.....	69:266
for apple, pear and quince diseases.....	69:270
for diseases of grape.....	69:270, 271
Botanical classification.....	71:304
Bourbon.....	71:300
Bowman's root.....	70:292
Bramble briar.....	70:291
Bread made from flour of the entire wheat.....	74:353, 355
Broach.....	71:300, 302, 304, 305
Brown's Indian co-operative seed tests; see Co-operative.	
<i>Bruchus 4 maculata</i>	61:51
<i>B. obtectus</i>	51:50, 51
<i>B. pisi</i>	61:50
Buckwheat, new Japanese.....	60:29
Bulletin No. 65, extracts from.....	71:301
Burning weeds vs. plowing them under.....	75:376
Caesar's Amanita, (<i>Amanita Casarea</i>).....	73:341, 343
<i>Calandra granaria</i>	61:52
<i>oryza</i>	61:53
Cane syrup; see Syrup.	
Cane saccharine content as affected by soils.....	66:185, 186
Cary, C. A., veterinarian: Rovine tuberculosis.....	67:197, 226
Carcinomas, clinical records of.....	72:313, 334
<i>Carpophilus fallipennis</i>	61: 58
Carbon, bisulphide.....	61:59, 60
CASSIA.....	70:289
<i>C. marilandica</i>	70:289
<i>C. tora</i>	70:290
<i>C. obtusifolia</i>	70:290
<i>C. occidentalis</i>	70:290
<i>C. chamaecrista</i>	70:290
<i>C. nictilous</i>	70:290
Cauliflower, co-operative seed tests with; see Co-operative.	
<i>Ceratocystis fimbriata</i>	69:264

<i>Cercis canadensis</i>	70:289
Change of food customs.....	74:349, 350
Chester, F. D., quoted on spraying for peach and plum rot.....	69:266
Cherry, wild black.....	70:291
Chokeberry, red.....	70:294
<i>Chrysobalanus oblongifolius</i>	70:291
Chick pea.....	60: 31
<i>Cicer arietinum</i>	60: 31
Cinque foil.....	70:293
Clavatia, &c. puff balls.....	73:345, 346
<i>Clitoria Mariana</i>	70:288
Clover, co-operative seed tests with; see Co-operative.	
Clover, fancy bush.....	70:286
bush.....	70:286
purple.....	70:286
downy.....	70:286
round headed.....	70:286
prairie.....	70:280
red.....	70:281
buffalo.....	70:282
white.....	70:281
southern.....	70:281
yellow.....	70:281
hop.....	70:281
<i>Colletotrichum gossypii</i>	69:258
<i>C. lagenarium</i>	69:263
Coleman, S. L.....	71:311
Composts; see Fertilizers.	
Co-operative seed tests, reports of—	
Aday, L. C., Newberg, Franklin Co.....	65:159
Beasley, E. J., Red Level, Covington Co.....	59: 4
Benton, Prof. H., Uniontown, Perry Co.....	59:8; 65:160, 162
Bishop, M. A., Madison, Madison Co.....	59:5; 65:162, 165
Bradley, T. W., Walker Springs, Clarke Co.....	59:6; 65:166, 167
Brannon, J. M., Seale, Russell Co.....	65:166
Brown, D. L., Randolph, Bibb Co.....	65:167
Compton, G. W., Wayne, Marengo Co.....	59:7; 65:167, 168
Crenshaw, W. D., Hackneyville, Tallapoosa Co.....	65:168, 169
Cross, R. H., Letohatchie, Lowndes Co.....	59:7-8

Agriculturist, report of	(28)
Anderson, Dr. J. T.....	(5)
Animal husbandry, or stock raising	(11)
Austin, Prof. C. F.....	(14)
Baker, Prof. C. F.....	43
Betts, Tancred	(4)
Bilbro, J. A.....	(4)
Biologist and Horticulturist, report of	(33)
Bragg, Thomas	(5) (19)
Bulletins	(10)
Butter, composition, as affected by cotton seed and cotton seed meal	196-7
Effects of food on melting point of.....	195
Calves, cost of raising	187
Carmichael, J. M.....	(4)
Cary, Dr. C. A.....	(5)
Chemist, report of	(18) (22)
Clarn, dash <i>versus</i> barrel	261
Churning experiments	199
Clark, Prof. R. W.....	183 (5)
Cowpeas, composition of different parts	37
Culture and summary	3 11
Fertilizer experiments	20
Lime for	20
Methods of harvesting	32
Nutritive value of peas and vines	25
Planting of	6
Subsoiling for	10
Varieties	12
Where to get seed	17
Cowpea culture	(16)
Hay	17, 28
Vines, time to plow in	129
Vines, fertilizing materials in leaves, stems and roots of	134-5
and velvet bean as fertilizers.....	(17)
158, 153, 154, 155, 157, 123, 130, 160, 165, 169, 171, 173, 174	
Stubble <i>versus</i> vines as fertilizer.....	139, 142, 144, 145

Creamery, different systems of	194
Cream, removing bitter weed from	189
Crops, rotation of	170
Cuiver, T. U.....	6 (5)
Dairy herd records and creamery notes	(17)
Davis, Wm. C.....	(4)
Duggar, Prof. J. F.....	3, 123, (5)
Earle, Mrs. F. S.....	43
Earle, Prof. F. S.....	43
Farmers' Institutes	(15)
Fertilization, a rational system of	176
Flora of metamorphic region of Alabama.....	(16) 43

Miller, Prof. E. R.	123, 126
New peach scale	91
Oak, Black or Quercitron Oak— <i>Quercus Velutina</i>	172
Laural— <i>Quercus Laurifolia</i>	172
Live— <i>Quercus Virginiana</i>	173
Scarlet— <i>Quercus Coccinea</i>	172
Water— <i>Quercus Nigra</i>	172
Willow— <i>Quercus Phellos</i>	172
Fungus causing disease of	175
disease distribution of in Alabama	181
disease distribution of in United States	180
Oaks, Leaf-Curl disease of	171
List of that are subject to disease of	179
prevention the disease of	177
symptoms of disease of	173
useful as shade trees in State	172
Oats, growth of before and after grazing	10
Peach and Plum Rosette	99
Peach Yellows	97
Pigs, average results of feeding rice polish	46
corn hearts <i>versus</i> cowpea meal <i>versus</i> corn meal as food	32
cotton seed meal <i>versus</i> cowpea meal and <i>versus</i> corn meal as a finishing food	36
crops for	7
effects of cotton seed meal on health of	33, 36

rigs, food consumed before and after weaning	10
gains made on chufas	19
gains made on peanuts	17
grazing and feeding experiments with	3
grazing sorghum and cowpeas with	24
growth of before and after weaning	9
Internal organs, etc. as effected by food.....	48
peanuts and chufas as pasture for	22
peanuts, corn meal and milk for	16
peanuts <i>versus</i> chufas <i>versus</i> mixed grain for.....	19
rape as winter pasture for	12
rice polish as food for	43, 44
Spanish peanuts as pasture for	15
sorghum grazed and soiled <i>versus</i> peanuts grazed.....	32
Plant Physiologist, report of	(16)
Poole, Hon. R. R.....	81
Ransom, A. McB.....	40 (5)
Rice meal, composition of	47, 54
Rice polish, composition of	47
Rosette, peach and plum.....	97
Ross, B. B.....	(5)
San Jose Scale	84, 85, 86, 87
Samford, T. D.....	(4)
Sargent, H. O.....	(5, 7)
Scott, Prof. W.M.....	86
Shoats, Dwarf Essex Rape as food for	11
cotton seed meal as food for	34
Some Diseases of Cattle	(8)
Soy bean compared with cowpea hay	60
hay, composition of	54
Spraying Materials: How to prepare	89
Station Council	(5)
Terry, W. K.....	(4)
Thael, Prof. Chas. C.....	81
Vetch, cowpea and soy bean as substitutes for wheat bran.....	51
hay, composition of	54
and wheat bran, amount of milk and butter produced by	58
Veterinarian, report of	(18)

Wheat bran compared with corn hearts	(68)
<i>composition of</i>	54
<i>limitation of the substitution of hay for</i>	65
<i>versus cowpea hay as food for cows.</i>	60
Wilcox, Dr. E. Mead	171 (5)
Woolly Aphis	101
Young animals, dysentery in	127

17TH ANNUAL REPORT

January to December, 1904.

Opelika, Ala.
The Post Publishing Company
1905.

CONTENTS.

BULLETINS:

127. Alfalfa in Alabama.....Feb., 1904
128. Feeding and Grazing Experiment with Beef Cattle Jan., 1904
129. The Mexican Cotton Boll WeevilAug., 1904
Annual Report, Seventeenth..... 1904

INDEX.

- Act to prevent importation of seed from boll weevil
districtB. 129: 93
- Agriculturist, report ofR. 17: 7, 9-11
- Alfalfa, analysis ofB. 127: 5
- harvesting ofB. 127: 44
- at LivingstonB. 127: 10
- at UniontownB. 127: 9-10, 14
- clipping and discingB. 127: 41-42
- fertilizer experiments with, at AuburnB. 127: 18-22
- fertilizer experiments on prairie landB. 127: 25-26
- fertilizers forB. 127: 17-18
- in Alabama(R. 17: 8), B. 127: 3
- inoculation of, on prairie soilsB. 127: 30-31
- Johnson grass land forB. 127: 39-40
- local experiments withB. 127: 16
- manure forB. 127: 25-26
- preparations of land forB. 127: 33-35, 38-39
- prices and profits ofB. 127: 11
- principal enemies ofB. 127: 40-41
- root diseases ofB. 127: 41
- sandy soils forB. 127: 16
- soils forB. 127: 11-13
- sowing broadcast versus in wide drillsB. 127: 35-36
- spring and fall sowingB. 127: 22, 31-33
- sowing ofB. 127: 36-38
- tolerance of, toward overflowsB. 127: 42-43
- uses ofB. 127: 4
- yields ofB. 127: 8
- Analysis of fertilizersR. 17: 12 and 15
- Analysis of alfalfaB. 127: 5
- Anderson, J. T.R. 17: 15
- Attendance on Farmers' InstitutesR. 17: 28-29
- Beef cattle, gains of on pastures aloneB. 128: 79-80
- inoculation against tick feverR. 17: 27-28
- Beef, cost of producingB. 128: 70-74
- production in AlabamaB. 128: 69
- Best crops to precede alfalfaB. 127: 33-39
- Bibliography of literature on boll weevilB. 129: 104
- Boll weevil, adultB. 129: 96-97

bibliography of literature on	B. 129: 104
culture methods to lesson damage of ..	B. 129: 102-104
damage done by	B. 129: 94

Sclerotil, root disease of alfalfa	B. 127: 41
Scrub cattle, gains made on pastures	B. 128: 81-83
growth made under range conditions	B. 128: 84
weights and gains made in pasture season in Macon County.....(Appendix) B. 128: 87	

Shedding of cotton	R. 17: 7
Sida spinosa	B. 127: 40
Sowing alfalfa broadcast versus in wide drills	B. 127: 35-36
Soils, analysis of	R. 17: 12
for alfalfa	B. 127: 11-13
Soil and fertilizer experiments	R. 17: 16
Sorghum	B. 128: 56, 59-62
hay versus shredded corn stover	B. 128: 76-77
varieties and fertilizers of	R. 17: 10
Sowing alfalfa	B. 127: 36-38
Soy beans, varieties and fertilizers of	R. 17: 10
Spring and fall sowing of alfalfa	B. 127: 22, 31-33
Steer feeding experiments, financial returns of	B. 128: 64-69
Steers, feeding of	R. 17: 8
grazing of yearlings on green rye	B. 128: 78-79
health of	B. 128: 69-70
manure produced by	B. 128: 70
prices of when sold	B. 128: 63-64
rations fed to	R. 17: 9
Strawberries	R. 17: 20
Summary	B. 128: 51-54
.....	B. 128: 51-54
.....	B. 127: 44-47
of fertilizer experiments with alfalfa	B. 127: 22
Thornton, W. L.	R. 17: 7
Tick fever	R. 17: 27-28
Tolerance of alfalfa towards overflows	B. 127: 42-43
Tomatoes	R. 17: 20
Treasurer, report of	R. 17: 6
Tuberculin	R. 17: 27
Uniontown, alfalfa at	B. 127: 9, 14
Uses of alfalfa	B. 127: 4
Vetches, varieties and fertilizers	R. 17: 10
Veterinarian, report of	R. 17: 27
Ward, W. F.	R. 17: 8
Waters, analysis of	R. 17: 12
Webb, Jno. C.	B. 127: 11, 36
Weights and gains made during pasture season by scrub cattle in Macon County (Appendix),	B. 128: 87-88
Wheat, culture, varieties and fertilizers	R. 17: 10
Wilcox, E. M.	R. 17: 17
Woods, A. F.	B. 127: 27
Yields of alfalfa	B. 127: 8

BULLETINS 130-134

AND

18TH ANNUAL REPORT

January to December, 1905.

List of Available Bulletins, May, 1906

Opelika, Ala.
The Post Publishing Company
1905.

CONTENTS.

BULLETINS:

130. Tests of Varieties of Cot'on January, 1905
131. Co-Operative Fertilizer Experiments with Cotton in
1901, 1902, 1903 and 1904.....Feburary, 1905
132. Diseases of The Apple, Cherry, Peach, Pear and
Plum; with Methods of Treatment.....April, 1905
133. The Manufacture of Cane Syrup.....December, 1905
134. Corn Culture.... .December, 1905
- Annual Report, Eighteenth..... 1905

INDEX.

Agriculturist, report of	R. 18: 9
Allalfa, in Alabama	R. 18: 20-21
culture, inoculation	R. 18:20-21
Analysis of feed stuff	R. 18: 12
Anderson, J. T.	R. 18: 14
Annual report for 1904	R. 18: 8
Apple trees	R. 18: 22-23
diseases	84
bitter rot	84
black knot	89
blight	123
canker	91
fly speck	93
hairy root	94
rust	95
scab	97
sooty blotch	102
Beans, varieties of	R. 18: 22
Bitter rot of apple	B. 132: 84
Black knot of apple	B. 132: 89
cherry	B. 132: 103
plum	B. 132: 103
Blight of apple	B. 132: 123
Pear	B. 132: 123
Breeding, corn	R. 18: 20
Brown, Rot of cherry	B. 132: 103
peaches	B. 132: 109
plum	B. 132, 109
Cane, adaptability of South Alabama soils for ...	B. 133: 150-151
addresses of firms who manufacture mills for ex-	
tracting juice of	B. 133: 152
analysis of	B. 133: 149
clarification or defecation of juice	B. 133: 158-159
clarifier	B. 133: 163-167
evaporators	B. 133: 155-156
experiments in syrup making	B. 133: 158
extraction of juice	B. 133: 158
methods of handling juice during evaporation ..	B. 133: 153-154

- removing mechanical impurities ..B. 133: 152-153
- small central syrup plantsB. 133: 167-168
- sulphuring and liming the juice of B. 133: 154-155
- sulphuring boxB. 133: 160-162
- Canker** of appleB. 132: 91
- plum**B. 132: 131
- Cary, C. A.R. 18: 16
- Castor oil beanR. 18: 21
- Certificates issued to nurseriesR. 18: 23-28
- Chickens, diseases ofR. 18: 16
- Cherry diseasesB. 132: 103
- black knotB. 132: 103
- brown rotB. 132: 109
- gummosisB. 132: 100
- leaf spot B. 132: 100
- Commercial fertilizers, analysis of R. 18: 14
- Co-operation with Bureau of Animal IndustryB. 18: 7
- Co-operative fertilizer, experiments with cotton in1901-1904
- Athens, Limestone CountyB. 131: 53-54
- Auburn, Lee CountyB. 131: 47-48
- Camp Hill, Tallapoosa County B. 131: 50-52
- Cellinsville, DeKalb CountyB. 131: 30-32
- Cullman, Cullman CountyB. 131: 38
- Enterprise, Coffee CountyB. 131: 59-61
- Evergreen, Conecuh CountyB. 131: 57
- Florence, Lauderdale CountyB. 131: 52-53
- Garland, Butler CountyB. 131: 62-63
- Geneva, Geneva CountyB. 131: 64-66
- Georgiana, Butler CountyB. 131: 61-62
- Gordo, Pickens CountyB. 131: 39-41
- Greenville, Butler CountyB. 131: 56
- Greensboro, Union Springs, Carson and GenevaB. 131: 74
- Hamilton** Marion County,B. 131: 43
- Hanover** Coosa CountyB. 131: 50
- Huntsville, Madison County, fertilizer co-operative experi-
ments with cottonB. 131: 24-28
- Long, Perry CountyB. 131: 34-36
- Louisville, Barbour CountyB. 131: 58-59
- Midland City, Dale CountyB. 131: 63-64
- Montevallo, Shelby CountyB. 131: 32-33
- Naheola, Choctaw CountyB. 131: 54-56
- Notasulga, Macon County.... B. 131: 46-47
- Russellville, Franklin CountyB. 131: 45-46

Tallassee, Elmore County	B. 131: 45-48.
Tidmore, Blount County	B. 131: 36-38
Tuscaloosa, Tuscaloosa County	B. 131: 41-42
Silver Run, Talladega County	B. 131: 28-30
Vick, Bibb County	B. 131: 48-50
Wetumpka, Elmore County	B. 131: 44-45
Wetumpka, Tallassee, Notasulga and Auburn	B. 131: 47
Barbour County, report of cotton fertilizer experiment	B. 131: 58-59
Bibb County, report of cotton fertilizer experiment, B.	131: 48-50
Blount County, report of cotton fertilizer experiment, B.	131: 36-38
Bullock County, report of cotton fertilizer experiment	B. 131: 74
Butler County, report of cotton fertilizer experiment, B.	131: 62-63
Butler County, report of cotton fertilizer experiment, B.	131: 61-62
Butler County, report of cotton fertilizer experiment, B.	131: 56
Choctaw County, report of cotton fertilizer experiment,	B. 131: 54-56
Coffee County, report of cotton fertilizer experiment, B.	131: 59-61
Coosa County, report of cotton fertilizer experiment	B. 131: 50
Conecuh County, report cotton fertilizer experiment....	B. 131: 57
Cullman County, report of cotton fertilizer experiment, B.	131: 38
Dale County, report of cotton fertilizer experiment, B.	131: 63-64
DeKalb County, report of cotton fertilizer experiment, B.	131: 30-32
Elmore County, report of cotton fertilizer experiment	B. 131: 44-46
Elmore, Macon, Lee Counties report of cotton fertilizer experiments.....	B. 131: 47
Franklin County, report of cotton fertilizer experiment	B. 131: 33-34
Geneva County, report of cotton fertilizer experiment, B.	131: 74
Geneva County, report of cotton fertilizer experiment	B. 131: 64-66
Hale County, report of cotton fertilizer experiment	B. 131: 74
Hale, Bullock, Washington, Geneva Counties, report of cotton fertilizer experiments	B. 131: 74
Lauderdale County, report of cotton fertilizer experiment	B. 131: 52-53
Lee County, report of cotton fertilizer experiment, B.	131: 47-48
Limestone County, report of cotton fertilizer experiment	B. 131: 53-54
Macon County, report of cotton fertilizer experiment, B.	131: 46-47
Madison County, report of cotton fertilizer experiment, B.	131: 24-28

- Marion County,, report of cotton fertilizer experiment, B. 131: 43
- Perry County, report of cotton fertilizer experiment, B. 34-36
- Pickens County, report of cotton fertilizer experiment, B. 131: 39-41
- Shelby County, report of cotton fertilizer experiment, B. 131: 32-33
- Talladega County, report of cotton fertilizer experiment..... B. 131: 28-30
- Tallapoosa County, report of cotton fertilizer experimentB. 131: 50-52
- Tuscaloosa County, report of cotton fertilizer experiment.....B. 131: 41-42
- Washington County, report of cotton fertilizer experiment.....B. 131: 74
- Co-operative work with Division of Vegetable Physiology and Pathology, U. S. D. A.R. 18: 7
- Corn, acid phosphate as fertilizer for, grown after velvet beansB. 134: 194-195
- average yield of best varieties of three types....B. 134: 179
- types of corn in bushel per acre, B. 134: 179
- beggar weed as fertilizer for.....B. 134: 194
- cotton seed versus cotton seed meal as fertilizer forB. 134: 198-200
- cowpea stubble versus cowpea vinesB. 134: 193-194
- cultureB. 134: 169 (9)
- cultureR. 18: 9
- depth of early cultivationB. 134: 188
- discussion of Moseby, Cocke, Henry Grady and SandersB. 134: 176
- early and late varietiesB. 134: 182
- fertilizer formulas forB. 134: 200
- Figure 6, Rainfall chart in inches for growing season at Auburn, Ala., 1901-1905(Appendix)
- Corn, Figures 1, 2, 3, 4, 5 are cuts showing ears of different varietiesB. 134, (Appendix)
- fractional applications of fertilizers for.....B. 134: 196-198
- Lead colored Mexican June and its current crosses.....B. 134, (Appendix)
- leguminous plants as fertilizer forB. 134: 192
- methods of harvestingB. 134: 189-192
- planting in water furrow versus on a level....B. 134: 188-189
- relations of number of ears per plant to the yield per acreB. 134: 177
- relative yield of all varieties tested at Auburn, B. 134: 175
- seed corn from different latitudes

.....B. 134: 183-186, (Appendix 201-2)	
size of ear in different varieties	B. 134: 180
suboling.....	B. 134: 187-188
top versus bottom ears	B. 134: 186
varieties classified according to number of ears re- quired to shell a bushel, into large eared varieties, medium eared, and small eared varieties	B. 134: 181
varieties classified according to the number of ears per plant into prolific, medium prolific and non-prolific	B. 134: 178
velvet bean stubble versus vines as fertilizer for, in 1901	B. 134: 192-193
yield of varieties in 1901, 1904-1905	B. 134: 173-4
breeding	R. 18: 20
varieties of sweet	R. 18: 22
Cotton, addresses of parties from whom seed were obtained in 1904.....	B. 130: 15-16
estimated cost of fertilizers 1901-1904.....	B. 131: 22
fertilizer formula used in co-operative experi- ments	B. 131: 23
fertilizer for	B. 130: 4
list of varieties tested	B. 130: 6
list of co-operative experiments	B. 131: 20
per cent lint	B. 130: 6, 9, 10
rainfall for 1901-1904	B. 131: 21
relative earliness of varieties	B. 130: 13-15
tests of varieties at McGehee's Switch, Mont- gomery Co., in 1904	B. 130: ?
types of.....	B. 130: 8
weather conditions affecting crop, 1904.....	B. 130: 3
yield of varieties	B. 130: 6
Crown gall of peaches	B. 132: 113
Culture inoculation of alfalfa	R. 18: 20-21
Diseases of chickens	R. 18: 16
sweet potatoes in Alabama	R. 18: 20
Duggar, J. F.	R. 18: 7
Diseases of the apple, cherrp, peach, pear and plum with ods of treatment	(R. 18: 8), B. 132: 75
lime-sulfur-salt wash	136
Explanation of plates	B. 132: 140
Fillers for fertilizers	R. 18: 12

Fly speck of apple	B. 132: 93
Fungicides	B. 132: 133
lime sulfur-salt wash	B. 132: 136
ammoniaal copper carbonate	B. 132: 136
bordeaux mixture	B. 132: 134
Feed stuff analysis	R. 18: 12
Fertilizer analysis	R. 18: 11
Fertilizers estimated cost of for cotton, 1901-1904	B. 131: 22
home mixing	R. 18: 11
Glenn, E. T.	R. 18: 6
Gummosis of cherry	B. 132: 106
peaches	B. 132: 106
plum	B. 132: 106
Hairy root of apple	B. 132: 94
peaches	B. 132: 94
Home mixing fertilizers	R. 18: 11
Improving peach varieties	R. 18: 22
Inoculation against tick fever	R. 18: 16
Institute work	R. 18: 19
Interest in horticultural work	R. 18: 23
Introductory	B. 133: 145-148
Introduction	B. 132: 79
Leaf spot of cherry	B. 132: 106
blight of pear	B. 132: 129
curl of peaches	B. 132: 116
spot of plum	B. 132: 106
Mailing list revised	R. 18: 8
Manufacture of cane syrup	B. 133: 145
Mackintosh, R. S.	R. 18: 22
Melons, varieties of musk and water	R. 18: 22
Mexican cotton boll weevil	R. 18: 17
Musk melons, varieties of	R. 18: 22
Nurseries receiving certificates	R. 18: 23-28
Peach crop	R. 18: 22
Peach diseases	B. 132: 109
brown rot	B. 132: 109
crown gall	B. 132: 113
gummosis	B. 132: 106
hairy root	B. 132: 94
leaf curl	B. 132: 116
rosette	B. 132: 119
yellows	B. 132: 121

Pear diseases	B. 132: 123
blight	B. 132: 123
leaf blight	B. 132: 127
scab	B. 132: 129
Phosphoric acid, action of on decaying organic matter, R. 18: 15	
Pig feeding tests with cotton seed meal and cotton seed, R. 18: 16	
Plum diseases	B. 132: 131
black knot	B. 132: 103
brown rot	B. 132: 109
canker	B. 132: 131
gummosis	B. 132: 106
leaf spot	B. 132: 106
plum pockets	B. 132: 132
Potash requirements of soils	R. 18: 14
Rations fed to steers	R. 18: 9
Report of Agriculturist	R. 18: 9
Chemist of Soils and Crop Investigation ...	R. 18: 14-15
Director	R. 18: 7-9
Horticulturist	R. 18: 22-28
Plant Physiologist and Pathologist	R. 18: 20-21
Treasurer	R. 18: 6
Veterinarian	R. 18: 16-19
Rosette of peaches	B. 132: 119
Ross, B. B.	R. 18: 11
Report of the Chemist	R. 18: 11-13
Rust of apple	B. 132: 95
Scab of apple	B. 132: 97
pear	B. 132: 129
Sooty blotch of apple	B. 132: 102
Sci's, potash requirements of	R. 18: 14
Sources of cotton seed for variety test in 1904 ...	B. 130: 15-16
Corn, summary	B. 134: 171-2
Summary of results of fertilizer experiments.....	B. 131: 67
Sweet potatoes, diseases of in Alabama	R. 18: 20
Syrups, from sugar cane	R. 18: 12-13
Tests of varieties of cotton in 1904	R. 18: 18
Tick fever	R. 18: 16-17
Tomatoes	R. 18: 22
Tuberculin	R. 18: 16
Varieties, cotton list of	B. 130: 6
Water melons, varieties of	R. 18: 22

Yellows of peaches	B. 132: 121
Wilcox, E. M.	R. 18: 20

LIST OF AVAILABLE BULLETINS MAY, 1906.

- 1.—Report of Agriculturist, new series.
- 17.—Dry application of Paris green and London purple for the cotton worm.
- 18.—Weather report.
- 22.—Experiments with cotton.
- 23.—Report of Alabama weather service.
- 27.—Black rust of cotton.
- 28.—Water melons and canteloupes.
- 80.—A preliminary list of Alabama fungi.
- 87.—Soil inoculation for Leguminous Plants.
- 89.—Experiments with cotton.
- 90.—I. The peach tree borer. II. The fruit bark beetle.
- 91.—Co-operative fertilizer experiments with cotton in 1897.
- 99.—Cotton rust.
- 101.—Experiments with cotton, 1898.
- 102.—Co-operative fertilizer experiments with cotton, 1898.
- 103.—Experiments in syrup making.
- 105.—Winter pasturage, hay, and fertility afforded by hairy vetch.
- 106.—Orchard notes.
- 109.—Strawberries.
- 110.—Grapes.
- 112.—Orchard notes.
- 113.—Co-operative fertilizer experiments with cotton, 1899-1906.
- 114.—Feeding experiments with dairy cows.
- 115.—Commercial fertilizers.
- 116.—Texas fever.
- 117.—Orchard notes.
- 118.—Cowpea culture.
- 128.—Feeding experiments with beef cattle.
- 129.—Mexican cotton boll weevil.
- 131.—Co-operative fertilizer experiments with cotton, 1901-2-3-4.
- 132.—Diseases of apple, cherry, peach, pear, and plum; with methods of treatment.
- 133.—The manufacture of cane syrup.
- 134.—Corn culture.

CONTENTS

BULLETINS:

135. Diseases of Sweet Potatoes in Alabama	June, 1906
136. Chicken Pox or Sorehead in Poultry	August, 1906
137. Experiment with Oats	September, 1906
138. Variety tests with Cotton and Corn	December, 1906
Circ. No. 1. Two Important Scale Insects and their Control	October, 1906
Annual Report, Nineteenth	1906

INDEX

- Alabama, oat crop of -----B. 137: 62
Anatomy of sorehead -----B. 136: 38
Anderson, J. T., report of -----R. 19, 21-22
Animals, coccidia in -----B. 136: 25
Agriculturist, report of -----R. 19: 7-17
Bacteria obtained from sorehead cases -----B. 136: 31
Barley versus oats versus wheat for hay and for grain -----B. 137: 64
Barnyard manure for oats -----B. 137: 79-81
Botanist, report of -----R. 19: 26-27
Black rot of sweet potato -----B. 135: 5
Cary, C. A. -----R. 19: 23-24
Causes of Chicken pox, sorehead or contagious epithelioma in poultry forms of -----B. 136: 22-25
Chicken pox, sorehead or contagious epithelioma in poultry forms of -----B. 136: 21-22
Chemist, report of -----R. 19: 18-20
Chickea mites -----B. 136: 53-56
Chickens, runs for -----B. 136: 52
houses for -----B. 126: 51-52
Chicken pox, sorehead or contagious epithelioma in poultry, causes of -----B. 136: 22-25
Clarke, W. T., report of -----R. 19: 34-36
Coccidia, life history of -----B. 136: 27
Coccidia, animals -----B. 136-25
Corn, varieties of -----B. 138: 101-102
Williamson method of culture -----B. 138: 102-104
Cotton varieties -----B. 138: 98-99
Cotton seed meal versus cotton seed as a fertilizer for oats -----B. 137: 81-82
Director, report of -----R. 19: 7-17
Diseases of sweet potatoes, literature on -----B. 135: 12-16
Dissemination and transmission of sorehead-----B. 136: 38
Dry rot of sweet potato -----B. 135: 7
Drugs for poultry -----B. 136: 55-56
Duggar, J. F., report of -----R. 19: 7-17
Entomologist, report of -----B. 19:34-36
Explanation of plates -----B. 136: 50
Feed for poultry -----B. 136-51

Fertilizers for oats	B. 137: 76-78
Hardiness of oats	B. 137: 76-78
Hay, oats for	B. 137: 92-94
Horticulturist, report of	R. 19: 28-33
Houses for chickens	B. 136: 51-52
Inoculation tests of sorehead	B. 136: 33-35
Incubation, period of sorehead	B. 136: 41
Immunity of sorehead	B. 136: 41
Kerosine oil emulsion	B. 136: 54
Laws regulating nurseries in Alabama	Circ. 1: 7-8
Leguminous plants as a fertilizer for oats	B. 137: 88-92
Life history of coecidia	B. 133: 27
Lime salt wash	Circ. 1: 7-8
Literature on diseases of sweet potatoes	B. 135: 12-16
Literature on sorehead	B. 136: 46-49
Mackintosh, R. S., report of	R. 19: 28-33
Methods of sowing oats	B. 137: 74-76
Mites, chicken	B. 136: 53-56
Mosquitoes as carriers of the virus	B. 136: 36-37
Nitrate of soda for oats	B. 137: 82-88
Nursery regulations of Alabama	Circ. 1: 2-3
Oat crop of Alabama	B. 137: 62
Oats, nitrate of soda for	B. 137: 82-88
Cotton seed versus cotton seed meal as fertil- izer for	B. 137: 81-82
Oats, versus wheat versus barley for hay and for grain yield of, compared with corn	B. 137: 64
varieties	B. 137: 63
time to sow	B. 137: 64-70
winter killing of	B. 137: 72-74
methods of sowing	B. 137: 70-72
hardiness of	BB. 137: 74-76
fertilizers for	B. 137: 76-78
barnyard manure for	B. 137: 79
leguminous plants as a fertilizer for	B. 137: 79-81
prevention of winter killing	B. 137: 88-92
as a hay crop	B. 137: 60
Oil, emulsion of kerosine	B. 137: 92-94
Pathological anatomy of sorehead	B. 136: 54
Peach scale	B. 136: 38
Pigeons, inoculation tests with sorehead	Circ. 1: 5-7
Plates, explanation of	B. 136: 35-36
Poultry, drugs for	B. 136: 50
	B. 136: 55-56

feed for	B. 136: 51
water supply for	B. 136: 51
Chicken pox, sorehead or contagious epithe- lioma, causes of	B. 136: 22-25
Prevention of smut in oats	B. 137: 78-79
Prevention of sorehead	B. 136: 43
Report of chemist	R. 19: 18-20
Ross, B. B., report of	R. 19: 18-20
Runs for chickens	B. 136: 52
San Jose scale	Circ. 1: 3-5
Scale, peach	Circ. 1: 5-7
San Jose	Circ. 1: 3-5
Scurf of sweet potato	B. 135: 7
Soft rot of sweet potatoes	B. 135: 8
Soil rot of sweet potato	B. 135: 9
Soil and crop investigations, report on	R. 19: 21-22
Smut, prevention of in oats	B. 137: 78-79
Sorehead, literature on	B. 136: 46-49
treatment of	B. 136: 41-44-46
prevention of	B. 136: 43
immunity of	B. 136: 41
period of incubation	B. 136: 41
symptoms of	B. 136: 39
pathological anatomy of	B. 136: 38
transmission and dissemination of	B. 136: 38
inoculation tests of	B. 136: 33-35
bacteria obtained from	B. 136: 31
Sweet potatoes, yields of	B. 135: 3
black rot of	B. 135: 5
dry rot of	B. 135: 7
scurf of	B. 135: 7
soft rot of	B. 135: 9
soil rot of	B. 135: 9
stem rot of	B. 135: 11
white rot of	B. 135: 12
Diseases of	B. 135: 12-16
literature on	B. 125: 12-12
Stem rot of sweet potato	B. 135: 11
Symptoms of sorehead	B. 136: 39
Time to sow oats	B. 137: 72-74
Transmission and dissemination of sorehead	B. 136: 38
Trap crops for insects	B. 139: 11-12
Treatment of sorehead	B. 136: 44-46

Varieties of corn	B. 138: 101-102
Varieties of cotton	B. 138: 98-99
Varieties of oats	B. 137: 64-70
Veterinarian, report of	R. 19: 23-25
Wash, lime, sulphur, salt	Circ. 1: 7-8
Water supply for poultry	B. 136: 57
Wilcox, E. M., report of	R. 19: 26-27
Winter killing of oats	B. 137: 70-72
Williamson method of corn culture	B. 138: 102-106
Wheat versus oats versus barley for hay and for grain ..	B. 137: 64
White lot of sweet potatoes	B. 135: 12

CONTENTS

BULLETINS:

140. Description and classification of varieties of American
upland cotton ----- June, 1907
141. Texas or Tick Fever----- July, 1907
142. Corn Breeding in Alabama -----March, 1908
- Circ. No. 2. Cedar Apples and Apple Leaf-Rust-----March, 1908
- Annual Report, Twentieth -----January, 1908

INDEX

Agriculturist, report of	R. 20: 9-13
Anderson, J. T., report of	R. 20: 17-19
Animal Husbandman, report of	R. 20: 31-33
Arsenate of lead	B. 139: 6
Best variety of cotton	B. 140: 32
Boll outlines of cotton varieties	B. 140: 71-105
Blood in Texas fever	B. 141: 111-117
Botanist, report of	R. 20: 22-23
Cattle tick, life history of	B. 141: 117-120
Causes of tick fever	B. 141: 110-111
Castor bean tick, description of	B. 141: 143-144
Care of cattle after inoculation against tick fever	B. 141: 130-131
Cary, C. A., report of	R. 20: 20-21
Chicken tick, description of	B. 141: 145-147
Chemist, report of	R. 20: 14-16
Cotton, descriptions of	B. 140: 41-70
size of seed	B. 140: 37-38
percent of lint of	B. 140: 135-137
the best one	B. 140: 32
correlation of characters	B. 140: 32-33
number of bolls per lb. seed cotton	B. 140: 34-35
photographs of	B. 140: plates 1 to 36
boll outlines of	B. 140: 71-105
Cotton varieties, uniformity of	B. 140: 24-25
Basis for classification	B. 140: 23-24
groups of	B. 140: 25-29
ranked by yield	B. 140: 30-31
Description of ear tick	B. 141: 145
Description of varieties of cotton	B. 140: 41-70
Description of Lone Star tick	B. 141: 145
Diagnosis of tick fever	B. 141: 123-127
Description of dog tick (American)	B. 141: 144-145
Dog tick, (American), description of	B. 141: 144-145
Description of net tick	B. 141: 44
Description of Castor bean tick	B. 141: 143-144
Description of Texas tick	B. 141: 141-143
Description of dog tick (European)	B. 141: 147
Description of chicken tick	B. 141: 145-147

Dog tick (European), description of	B. 141: 147
Director, report of	R. 20: 9-13
Duggan, J. F., report of	R. 20: 9-13
Entomologist, report of	R. 20: 34-38
Ear tick, description of	B. 141: 145
Farm practices to eradicate insects	B. 139: 12-15
Gray, D. T., report of	R. 20: 31-33
Groups of varieties of cotton	B. 140: 25-29
Hinds, W. E., report of	R. 20: 34-38
History of tick fever	B. 141: 109
Horticulturist, report of	R. 20: 24-30
Inoculated cattle tick, temperatures of	B. 141: 138-141
Inoculation of cattle, records of	B. 141: 132-137
Inoculation against tick fever	B. 141: 128-130
Injury by insects	B. 139: 4-5
Insects, poisoning of	B. 139: 5-8
trap crops for	B. 139: 11-12
control of	B. 139: 16-19
Insect pests, destroying by mechanical methods	B. 139: 8-11
Insects with sucking mouths	B. 139: 15-16
Immunity to tick fever	B. 141: 127-128
Lice on plants	B. 139: 19-20
Life history of ticks in Alabama	B. 141: 147-148
Life history of cattle tick	B. 141: 117-120
Literature on corn breeding	B. 142: 21-24
Live Stock Sanitary Board	B. 141: 181-185
Lone star tick, description of	B. 141: 145
Mackintosh, R. S., report of	B. 20: 24-30
Mechanical methods of destroying insects	B. 139: 8-11
Methods of eradicating the cattle tick	B. 141: 156-174
Net tick, description of	B. 141: 144
Paris green	B. 139: 5
Photographs of cotton varieties	B. 140: plates 1 to 36
Plant lice	B. 139: 19-20
Poisoning of insects	B. 139: 5-8
Productiveness of varieties of cotton	B. 140: 29
Records of inoculating cattle	B. 141: 132-137
Report of Chemist	R. 20: 14-16
Ross, E. B., report of	R. 20: 14-16
Scale, insects, control of	B. 139: 3-5
Soils and crop investigations, report of	R. 20: 17-19
Sucking insects	B. 139: 15-16
Symptoms of tick fever	B. 141: 121-123

Temperatures of inoculated cattle	B. 141: 138-141
Testing seed corn	B. 140: 19-20
Ticks in Alabama, life history of	B. 141: 147-153
Tick fever, immunity to	B. 141: 127-128
Tick fever, inoculation against	B. 141: 128-130
Texas cattle tick, description of	B. 141: 141-143
Tick fever, history of	B. 141: 109
Tick or Texas fever, causes of	B. 141: 110-111
Tick fever, symptoms of	B. 141: 121-127
Tick fever, diagnosis of	B. 141: 123-127
Varieties of cotton, number of bolls per pound of	
seed cotton	B. 140: 34-35
percent of lint	B. 140: 35-36
size of seed	B. 140: 37-38
description of	B. 140: 41-70
ranked by yield	B. 140: 30-31
productiveness of	B. 140: 29
classification of	B. 140: 24-25
reasons for classification	B. 140: 23
Veterinarian, report of	R. 20: 20-21
Wilcox, E. M., report of	R. 20: 22-23
Why eradicate the cattle tick	B. 141: 151-156

- 1.—Report of Agriculturist, new series.
- 28.—Water melons and canteloupes.
- 80.—A preliminary list of Alabama fungi.
- 87.—Soil inoculation for Leguminous Plants.
- 105.—Winter pasturage, hay, and fertility afforded by hairy vetch.
- 112.—Orchard notes.
- 113.—Co-operative fertilizer experiments with cotton, 1899-1900.
- 114.—Feeding experiments with dairy cows.
- 115.—Commercial fertilizers.
- 116.—Texas fever.
- 117.—Orchard notes.
- 118.—Cowpea culture.
- 128.—Feeding experiments with beef cattle.
- 131.—Co-operative fertilizer experiments with cotton, 1901-2-3-4.
- 133.—The manufacture of cane syrup.
- 134.—Corn culture.
- 135.—Diseases of sweet potatoes in Alabama.
- 136.—Chicken pox or sorehead in poultry.
- 137.—Experiments with oats.
- 139.—Injurious insects and their control.
- 140.—Descriptions and classification of varieties of American up-land cotton.
- 141.—Texas or tick fever.
- 142.—Corn breeding in Alabama.

LIST OF AVAILABLE BULLETINS JULY, 1910.

- 80.—A preliminary list of Alabama fungi.
87.—Soil inoculation for Leguminous Plants.
112.—Orchard notes.
113.—Co-operative fertilizer experiments with cotton, 1899-1900.
114.—Feeding experiments with dairy cows.
115.—Commercial fertilizers.
117.—Orchard notes.
131.—Co-operative fertilizer experiments with cotton, 1901-2-3-4.
133.—The manufacture of cane syrup.
134.—Corn culture.
135.—Diseases of sweet potatoes in Alabama.
136.—Chicken pox or sorehead in poultry.
137.—Experiments with oats.
139.—Injurious insects and their control.
141.—Texas or tick fever.
142.—Corn breeding in Alabama.
144.—The San Jose scale and lime-sulphur wash.
145.—Local fertilizer experiments with cotton in 1905-6-7-8.
146.—Facing the boll weevil problem in Alabama.
147.—Crimson clover.
148.—Raising lambs in Alabama. Maintenance ration for ewes.
Feeding cotton seed meal to pregnant ewes.
149.—Tests of varieties of cotton in 1909.

Winter fattening of calves on cottonseed meal, cottonseed hulls and peavine hay	B.	158: 203
Wintering of calves and fattening them the following summer on pasture	B.	158: 212

LIST OF AVAILABLE BULLETINS JULY, 1912.

80. A preliminary list of Alabama fungi.
136. Chicken pox or sorehead in poultry.
141. Texas or tick fever.
144. The San Jose scale and lime-sulfur wash.
145. Local fertilizer experiments with cotton in 1905-6-7-8.
146. Facing the boll weevil problem in Alabama.
152. Self-boiled lime-sulfur and its use.
153. Experiments with cotton, varieties, boll rot, wilt, phosphate.
154. Corn, soy bean pastures, tankage, cottonseed meal, for fattening hogs.
156. Peach growing in Alabama.
158. Fattening beef calves in Alabama.
160. Local fertilizer experiments with cotton in South Alabama.
161. Lime for Alabama soils.
162. Local fertilizer experiments with cotton in North Alabama.

AND

29TH ANNUAL REPORT

AND

CIRCULAR No. 34

AND

PRESS BULLETINS Nos. 83-89

January to December, 1916

1918
Post Publishing Company
Opelika, Ala.

CONTENTS

BULLETINS:

187. CabbageJanuary, 1916
188. Boll Weevil in AlabamaMarch, 1916
189. Wilt Resistant Varieties of CottonApril, 1916
190. Citrus CankerMay, 1916
191. The Effect of Certain Organic Compounds
 on Plant GrowthJune, 1916
192. Cotton Seed Meal Compared with Velvet
 Beans for fattening SteersNovember, 1916

CIRCULARS:

34. Annual Report of the Director of the Experi-
 ment Station on Work done Under the
 Local Experiment Law in 1916February, 1916

PRESS BULLETINS:

83. Controlling the Boll Weevil by Collecting
 Weevils and Infested Squares
84. Wilt Resistant Varieties of Cotton
85. Separation of Corn Cockle Seed from Com-
 mercial Narrow-Leaf Vetch Seed
86. Tests of Varieties of Corn in 1916.
87. Varieties of Fruits for a Home Orchard in
 Alabama.
88. Tests of Varieties of Cotton in 1916.
89. The Home Orchard; Setting and Care.
Annual Report, Twenty-Ninth1916

INDEX

BULLETINS 193-198

AND

30TH ANNUAL REPORT

AND

CIRCULARS Nos. 35-36

AND

PRESS BULLETINS Nos. 85-92

January to December, 1917

1918

Post Publishing Company
Opelika, Ala.

CONTENTS

BULLETINS:

193. Peanuts: Tests of Varieties and Fertilizers February, 1917
194. Growing Peanuts in AlabamaFebruary, 1917
195. The Cause of the Disappearance of Cumarin,
Vanillin, Pyridine and Quinoline in the
SoilJune, 1917
196. The Nitrification of Pyridine, Quinoline,
Guanidine Carbonate, etc., in SoilsJune, 1917
197. Harvesting and Storing Sweet Potatoes ..September, 1917
198. Velvet Beans Compared with Cottonseed Meal
for Fattening SteersPart 1
Velvet Beans, Cottonseed Meal and Corn as
Feeds for Dairy CattlePart 2
Velvet Bean Pasture Compared with Corn
and Dried Blood; Velvet Bean Meal Com-
pared with Corn for Fattening Hogs Part 3
.....November, 1917

CIRCULARS:

35. Annual Report of the Director of the Experi-
ment Station on Work Done Under the
Local Experiment Law in 1916.....February, 1917
36. Preserving Eggs for Home UseApril, 1917

PRESS BULLETINS:

90. How to Save Alabama's Corn Crop.
91. Tests of Varieties of Corn in 1917.
92. Tests of Varieties of Cotton in 1917.
Annual Report, Thirtieth1917

Average Yield of Peanuts	Bul. 193: 23
Fertilizer Experiments with Peanuts ..	Bul. 193: 24
Houston County, 2 Miles South of Dothan,	

S. A. Mullins, 1911, Gray Sandy Loam with Stiffer Yellow Subsoil	Bul. 193: 24
Experiments in Houston County, 1911, Dothan	Bul. 193: 25
Covington County, 1 Mile Southeast of Opp, B. J. Barnes, 1913	Bul. 193: 25
Experiments in Covington County	Bul. 193: 26
Separate Effect of Cottonseed Meal, Acid Phosphate, Kainit and Slacked Lime in In- creasing the Yield of Dry Nuts per Acre at Opp, Covington County	Bul. 193: 27
Lee County, 1 Mile Southeast of Auburn, W. M. Dean, 1915	Bul. 193: 28
Experiments in Lee and Cullman Coun- ties	Bul. 193: 28
Cullman County, 1½ Miles North of Cull- man, J. O. O. F. Home	Bul. 193: 29
(Ed. B. Miller, Supl., 1915.) Separate Effect of Cottonseed Meal, Acid Phosphate, Kainit and Slacked Lime in In- creasing the Yield of Dry Nuts per Acre at Auburn and Cullman	Bul. 193: 29
General Suggestions for Fertilizing Pea- nuts	Bul. 193: 29
Appendix, Inconclusive Experiments	Bul. 193: 31
Separate Effect of Cottonseed Meal, Acid Phosphate and Kainit in Increasing the Yield of Nuts per Acre at Dothan, Houston County, 1911	Bul. 193: 31
Inconclusive Experiments in Butler and Cullman Counties	Bul. 193: 32

Sweet Potatoes, Harvesting and Storing	Bul. 197
Introduction	Bul. 197: 87

Making the Experiment Storage Room ..	Bul. 197: 87
Building the Bins	Bul. 197: 88
Cost of Remodeling the Room	Bul. 197: 89
Harvesting the Crop	Bul. 197: 89-90
Time of Harvesting	Bul. 197: 90
Filling the Bins	Bul. 197: 90
The Curing Period	Bul. 197: 91
Curing Temperature	Bul. 197: 91-92
Storage Temperature	Bul. 197: 92
Comments on Storage Results	Bul. 197: 92
Table 2—Results on Storage Tests	Bul. 197: 93
Storage Rot	Bul. 197: 94
Loss of Weight in Curing	Bul. 197: 94
Table 3—Loss in Weight	Bul. 197: 95
Heating and Ventilating	Bul. 197: 96
Humidity	Bul. 197: 96
Summary	Bul. 197: 97
Plans and Specifications for a House 20x20 feet with a Capacity of 1250 bushels ..	Bul. 197: 98-99
Templeton, G. S. , report of, on Local Experiment Work	Cir. 35: 14-16
Templeton, G. S. , report of	R. 30: 23-24
Velvet Beans Compared with Cottonseed Meal for Fattening Steers. Velvet Beans, Cottonseed Meal and Corn as Feeds for Dairy Cattle. Velvet Bean Pasture Compared with Corn and Dried Blood; Velvet Beans Compared with Corn for Fattening Hogs	Bul. 198
Part 1—Velvet Beans Compared with Cottonseed Meal for Fattening Steers	Bul. 198
Introduction	Bul. 198: 103
Object of the Experiment	Bul. 198: 104
The Cattle	Bul. 198: 104
General Plan of the Work	Bul. 198: 104
Price and Character of Feeds Used	Bul. 198: 105
Methods of Feeding and Handling the Steers	Bul. 198: 105
Table 1—Showing the Average Amount of Feed Consumed Daily per Steer, December 21, 1916 to April 19, 1917	Bul. 198: 106
Table 2—Average Weights and Gains Dec- ember 21, 1916 to April 19, 1917	Bul. 198: 106
Quantity and Cost of Feed Required to Make 100 pounds Gain	Bul. 198: 107
Table 3—Quantity and Cost of Feed to Make 100 pounds Gain, December 21, 1916	

	to April 19, 1917	Bul. 198: 107
	Financial Statement	Bul. 198: 108
	Lot 1—Velvet Beans and Corn Silage ..	Bul. 198: 108
	Lot 2—Cottonseed Meal and Corn Silage	Bul. 198: 108
	Summary Statements	Bul. 198: 109
Part 2	Bul. 198: 110
	Velvet Beans Versus Cottonseed Meal as Feeds for Dairy Cattle	Bul. 198: 110
	Introduction	Bul. 198: 110
	Experiment A—Object of the Experiment	Bul. 198: 110
	Plan of the Experiment	Bul. 198: 111
	Feeds Used	Bul. 198: 111
	Table 1—Showing Total Amount of Feed Consumed and Amount of Milk and But- terfat Produced, (56 Days)	Bul. 198: 112
	Table 2—Showing the Amount of Feed Required for, and Cost of Feed, 100 pounds Milk and 1 pound of Butterfat ..	Bul. 198: 113
	Table 3—Showing the Influence of Two Rations on the Weights of the Cows ..	Bul. 198: 113
	Summary	Bul. 198: 113
	Experiment B—Objects of the Experiment (Winter 1916-17	Bul. 198: 111
	Cows Used	Bul. 198: 114
	Plan of the Experiment	Bul. 198: 114
	Feeds Used	Bul. 198: 115
	Methods of Feeding and Handling Cows	Bul. 198: 115
	Table 1—Showing Total Amount of Feed Consumed, and Amount of Milk and But- terfat Produced	Bul. 198: 115
	Table 2—Showing Amount of Feed Re- quired to Produce 100 Lbs. of Milk and 1 Pound of Butterfat	Bul. 198: 116
	Table 3—Showing Ratio of Productive Value of Cottonseed Meal and Velvet Beans in Pods, Ground	Bul. 198: 116
	Table 4—Showing the Influence of the Two Rations on the Weights of Cows ..	Bul. 198: 117
	Summary	Bul. 198: 117
Part 3	Bul. 198
	Velvet Bean Pasture Compared with Corn and Dried Blood; Velvet Bean Meal Com- pared with Corn for Fattening Hogs	Bul. 198
	Introduction	Bul. 198: 118
	Object of Experiment A	Bul. 198: 118

Rations and the Velvet Bean Crop	Bul. 198: 118
The Pigs	Bul. 198: 119
Methods of Feeding	Bul. 198: 119
Velvet Bean Pasture Compared with Dry Lot Feeding, Lots 1 and 2 (November 3 to December 26, 1914) 30 Days	Bul. 198: 120
Summary Statements	Bul. 198: 120
Objects of Experiments	Bul. 198: 121
Feeds and Methods of Feeding	Bul. 198: 121
Corn Versus One-half Corn and Velvet Bean Meal One-half, December 27, 1916 to March 27, 1917 (90 Days)	Bul. 198: 122
Summary Statements	Bul. 198: 122
Veterinarian, report of	R. 30: 25-27
